PLANT AND SOIL

PLANT AND SOIL

International Journal of Plant Nutrition, Plant Chemistry, Soil Microbiology and Soil-borne Plant Diseases

Issued under the auspices of the Royal Netherlands Society of Agricultural Science

Editorial Board: T. A. Lie, *Wageningen*, E. G. Mulder, *Wageningen*, F. Steenbjerg, *Copenhagen*, L. K. Wiersum, *Haren*

Editor-in-Chief: G. H. Arnold, *Haren (Gr.)*, *The Netherlands*

Editors: A. Houwers, *Wageningen*, and J. K. Smit, *Epe*

Consulting Editors:

A. D. L. Akkermans, *Wageningen*
D. Atkinson, *East Malling, Maidstone*
B. Bar-Akiva, *Bet Dagan*
D. Barel, *Arnhem*
C. H. M. van Bavel, *College Station, Texas*
P. H. T. Beckett, *Oxford*
J. H. Becking, *Wageningen*
J. F. Bierhuizen, *Wageningen*
G. J. Bollen, *Wageningen*
D. Bouma, *Canberra*
D. Bourhot, *Dijon*
R. Boxma, *Haren*
N. van Breemen, *Wageningen*
R. Brouwer, *Utrecht*
J. van den Burg, *Wageningen*
J. H. Cock, *Cali*
R. J. Cook, *Pullmann*
I. R. Cowan, *Canberra*
S. Dasberg, *Bet Dagan*
S. K. De Datta, *Manila*
A. van Diest, *Wageningen*
R. O. D. Dixon, *Edinburgh*
J. F. Dormaar, *Lethbridge*
M. C. Drew, *Wantage*
W. Dijkshoorn, *Wageningen*
A. W. S. M. van Egeraat, *Wageningen*
W. E. Ehrler, *Phoenix*
H. G. van Faassen, *Haren*
G. A. Fleming, *Wexford*
E. M. Ford, *East Malling*
W. H. Fuller, *Tucson*
R. G. Gerritse, *Haren*
H. R. Gislerød, *Aas*
W. Godfrey-Sam-Aygrey, *Luyengo*
B. J. van Goor, *Haren*
H. de Haan, *Oosterzee*
W. R. C. Handley, *Oxford*
J. L. Harley, *Oxford*
H. ten Have, *Wageningen*
D. G. Hill-Cottingham, *Bristol*
G. M. Hoffman, *Freising-Weihenstephan*
R. Howeler, *Cali*
J. L. M. Huntjens, *Wageningen*
S. C. Jarvis, *Hurley*
T. Kawasaki, *Kurashiki*
M. B. Kirkham, *Stillwater*
A. Kloke, *Berlin*
K. Kreutzer, *München*
S. Larsen, *Copenhagen*
G. Lebbink, *Haren*
L. Leyton, *Oxford*
D. C. Malcolm, *Edinburgh*
L. 't Mannetje, *St. Lucia, Brisbane*
C. L. Masterson, *Wexford*
D. S. Mikkelsen, *Davis*
K. Müller, *Göttingen*
P. H. Nye, *Oxford*
L. R. Oldeman, *Bogor*
Wm. H. Patrick, *Baton Rouge*
F. Penningsfeld, *Freising*
R. Piot, *Heverlee*
M. Polemio, *Bari*
F. N. Ponnamperuma, *Manila*
P. A. C. Raats, *Haren*
D. A. Rennie, *Saskatoon*
J. D. Rhoades, *Riverside*
R. Rodriguez-Kábana, *Auburn*
D. A. Rose, *Littlehampton*
T. Saito, *Sendai*
K. Sato, *Sendai*
B. Schippers, *Baarn*
M. Schnitzer, *Ottawa*
A. van Schoonhoven, *Cali*
U. Schwertmann, *Freising-Weihenstephan*
K. W. Smilde, *Haren*
D. Snow, *Reading*
C. Sonneveld, *Naaldwijk*
L. H. Sørensen, *Roskilde*
J. H. J. Spiertz, *Wageningen*
A. A. Steiner, *Wageningen*
K. G. Tiller, *Glen Osmond*
A. Troughton, *Aberystwyth*
D. L. Trudghill, *Dundee*
J. T. N. Venekamp, *Haren*
J. Wesseling, *Wageningen*
R. Wetselaar, *Canberra*
H.-J. Wiebe, *Hannover*

Plant and Soil

INTERNATIONAL JOURNAL OF PLANT NUTRITION,
PLANT CHEMISTRY, SOIL MICROBIOLOGY AND
SOIL-BORNE PLANT DISEASES

VOLUME 53

MARTINUS NIJHOFF PUBLISHERS
THE HAGUE / BOSTON / LONDON
1979

PRINTED IN THE NETHERLANDS

CONTENTS—TABLE DES MATIERES—INHALT

PAGE

M. Abe and S. Higashi, The infectivity of *Rhizobium trifolii* into a minute excised root of white clover 81

J. H. Becking, Nitrogen fixation by *Rubus ellipticus* J. E. Smith . 541

Y. Ben-Yephet, Penetration of metham and mylone into soil columns as measured by their effect on viability of microsclerotia of *Verticillium dahliae* 341

K. K. S. Bhat. A. J. Brereton and P. H. Nye, The possibility of predicting solute uptake and plant growth response from independently measured soil and plant characteristics: VII. The growth and nitrate uptake of rape in soil at two nitrate concentrations and a comparison of the results with model predictions 169

K. K. S. Bhat, A. J. Brereton and P. H. Nye, The possibility of predicting solute uptake and plant growth response from independently measured soil and plant characteristics: VIII. A comparison of the growth and nitrate uptake of rape grown in similar nitrate concentration in solution or in soil solution. 193

K. K. S. Bhat, P. H. Nye and A. J. Brereton, The possibility of predicting solute uptake and plant growth response from independently measured soil and plant characteristics: VI. The growth and uptake of rape in solutions of constant nitrate concentration 137

J. H. Cushman, The effect of a constant efflux on solute movement to a root 303

G. I. Dewan and N. S. Subba Rao, Seed inoculation with *Azospirillium brasilense* and *Azotobacter chroococcum* and the root biomass of rice (*Oryza sativa L.*) 295

B. K. Dutta and I. Isaac, Effects of organic amendments to soil on the rhizosphere microflora of antirrhinum infected with *Verticillium dahliae* Kleb 99

I. H. Elsokkary, The chemical fractionation of soil zinc and its specific and total adsorption by Egyptian alluvial soils 117

H. G. van Faassen, *Short communication.* Some comments on 'Urease activity and its Michaelis constant for soil systems', by Viraj Beri *et al.* 227

M. Gautam and S. J. Kolte. *Short communication.* Control of

B. K. DUTTA and I. ISAAC, Effects of organic amendments to soil on the rhizosphere microflora of antirrhinum infected with *Verticillium dahliae* Kleb 99

I. H. ELSOKKARY, The chemical fractionation of soil zinc and its specific and total adsorption by Egyptian alluvial soils 117

H. G. VAN FAASSEN, *Short communication.* Some comments on 'Urease activity and its Michaelis constant for soil systems', by Viraj Beri *et al.* 227

M. GAUTAM and S. J. KOLTE. *Short communication.* Control of

sclerotium of sunflower through organic amendments of soil . 233
M. HALDAR and L. N. MANDAL, Influence of soil moisture regimes and organic matter application on the extractable Zn and Cu content in rice soils 203
M. HERLIHY, Nitrogen mineralisation in soils of varying texture, moisture and organic matter: I. Potential and experimental values in fallow soils 255
M.HERLIHY and P. SHEEHAN, Nitrogen mineralisation in soils of varying texture, moisture and organic matter: II. A-values in soils cropped with ryegrass 269
J. L. M. HUNTJENS, *Short communication.* A sensitive method for continuous measurement of the carbon dioxide evolution rate of soil samples 529
A. ISLAM, R. MANDAL and K. T. OSMAN, Direct absorption of organic phosphate by rice and jute plants 49
K. S. JAUHRI, R. S. BHATNAGAR and V. ISWARAN, Associative effect of inoculation of different strains of azotobacter and homologous rhizobium on the yield of moong (*Vigna radiata*), soybean (*Glycine max*) and pea (*Pisum sativum*) 105
S. D. KANCHAN and JAYACHANDRA, Allelopathic effects of *Parthenium hysterophorus* L.:I. Exudation of inhibitors through roots 27
S. D. KANCHAN and JAYACHANDRA, Allelopathic effects of *Parthenium hysterophorus* L.: III. Inhibitory effects of the weed residue 37
L. P. KAURAW, Effect of different soil types, pH and phosphorus levels on the wheat seedling and the incidence of *Pythium graminocolum* 551
R. KIMURA and M. YAMAGUCHI, *Short communication.* Asymmetric decomposition of the slow-release fertilizer CDU by soil bacteria
E. L. KOTHNY, Palladium in plant ash 547
W. K. LAUENROTH, C. J. BICAK and J. L. DODD, Sulfur accumulation in western wheatgrass exposed to three controlled SO_2 concentrations 131
R. LEE and T. W. SPEIR, Sulphur uptake by ryegrass and its relationship to inorganic and organic sulphur levels and sulphatase activity in soil 407
V. D. LUEDDERS, D. E. CARLING and M. F. BROWN, *Short communication.* Effect of soybean plant growth on spore production by *Glomus mosseae* 393

N. MALAKONDAIAH and G. RAJESWARARAO, *Short communication.* Effect of foliar application of phosphorus on RNA and DNA under salt-stress in peanut plants (*Arachis hypogaea* L.) 251
R. S. MALIK, J. S. DHANKAR and N. C. TURNER, Influence of soil water deficits on root growth of cotton seedlings 109
H. MATSUMOTO, K. OKADO and E. TAKAHASHI, Excretion products of maize roots from seedling to seed development stage 17
K.R. MIDDLETON and G. S. SMITH, A comparison of ammoniacal and nitrate nutrition of perennial ryegrass through a thermodynamic model 487
L. C. MISHRA, Nitrogen cycling in grasslands at Kanpur, India . 361
I. H. MOHAMMED, Fixed ammonium in Libyan soils and its availability to barley seedlings 1
R. S. MORRISON, R. R. BROOKS, R. D. REEVES and F. MALAISSE, *Short communication.* Copper and cobalt uptake by metallophytes from Zaïre 535
D. MUKHOPADHYAY and B. NANDI, Biodegradation of rice stumps by soil mycoflora 215
G. R. NAIK and G. V. JOSHI, Photosynthetic carbon fixation in iron-chlorotic and recovered green sugarcane leaves 505
G. NAKOS, Fertilization of poplar clones in the nursery 67
G. NAKOS, Lead pollution. Fate of lead in the soil and its effects on *Pinus* halepensis 427
S. NEMEC and J. H. O'BANNON, Response of *Citrus aurantium* to *Glomus etunicatus* and *G. mosseae* after soil treatment with selected fumigants 351
K. NÉMETH, I. Q. MAKHDUM, K. KOCH and H. BERINGER, Determination of categories of soil nitrogen by electro-ultrafiltration (EUF) 445
M. VAN NOORDWIJK and J. FLORIS, *Short communication.* Loss of dry weight during washing and storage of root samples 239
R. L. PARFITT, The availability of P from phosphate-goethite bridging complexes. Desorption and uptake by ryegrass 55
A. A. PARSA and A. WALLACE, Organic solid wastes from urban environment as iron sources for sorghum 455
B. K. PUGASHETTI and G. H. WAGNER, Interactions of *Rhizobium japonicum* strains in soybeans nodules and their contribution to nitrogen fixation 463
H. A. VAN RHEENEN, Soil moisture and growth of sesame 277

A. P. RUSCHEL, P. B. VOSE, R. L. VICTORIA and E. SALATI, Comparison of isotope techniques and non-nodulating isolines to study the effect of ammonium fertilization on dinitrogen fixation in soybean, *Glycine max* 513
K. L. SAHRAWAT, Effects of parathion and malathion on transformations of urea and ammonium sulfate nitrogen in soils . . . 11
A. SHOMER-ILAN, Y. B. SAMISH, T. KIPNIS, D. ELMER and Y. WAISEL, Effects of salinity, N-nutrition and humidity on photosynthesis and protein metabolism of *Chloris gayana* Kunth 477
U. C. SHUKLA and N. SINGH, *Short communication.* Phosphorus-copper relationship in wheat 399
C. S. SINGH and N. S. SUBBA RAO, *Short communication.* Associative effect of *Azospirillum brasilense* with *Rhizobium japonicum* on nodulation and yield of soybean (*Glycine max*) 387
A. P. SINHA, V. P. AGNIHOTRI and K. SINGH, Effect of soil fumigation with vapam on the dynamics of soil microflora and their related biochemical activity 89
H. D. SKIPPER and G. W. SMITH, Influence of soil pH on the soybean–endomycorrhiza symbiosis 559
V. R. SMITH, *Short communication.* Evaluation of a resin-bag procedure for determining plant-available P in organic, volcanic soils 245
F. A. SNEVA, Lithium toxicity in seedlings of three cool season grasses 219
C. S. WEERARATNA, Pattern of nitrogen release during decomposition of some green manures in a tropical alluvial soil . . . 287
M. G. ZAROUG and D. N. MUNNS, Nodulation, nitrogen fixation, leaf area and sugars content in *Lablab purpureus* as affected by sulfur nutrition 319
M. G. ZAROUG and D. N. MUNNS, Nodulation and growth of *Lablab purpureus* (*Doblichos lablab*) in relation to rhizobium strain, liming and phosphorus 329
D. B. ZOBEL and V. T. LIU, Foliar nutrient concentrations of small *Chamaecyparis* in Taiwan 373
